## Description

ASFIBE 92 PRO 50 PAX – LUXURY COMMERCIAL YACHT  
2007 | Refit 2024 | Spanish Flag | REBECA Classification | Available from Autumn 2026  
The ASFIBE 92 PRO 50 PAX, also known as BORAMAR LUXE, is a rare high-end commercial yacht on the Mediterranean market. Built in Spain by ASFIBE S.A. in 2007 and extensively refitted in 2024, this professional charter vessel combines premium image, high passenger capacity and strong annual charter revenue potential. Registered under Spanish commercial flag (Lista 2) and fully REBECA classified, the yacht benefits from a valuable dual SOLAS I / H classification allowing her to legally operate both as an exclusive private charter yacht and as a commercial passenger vessel for ticketed excursions. A very rare configuration in this size category. With an approved capacity of 50 passengers, the ASFIBE 92 PRO stands apart from traditional yachts limited to 12 guests. This commercial capacity creates exceptional profitability opportunities through:  
VIP charters,  
private events,  
sunset cruises,

corporate hospitality,  
weddings,  
brand activations,  
premium tourism,  
and exclusive Balearic excursions. The yacht offers strong annual income potential thanks to its commercial licensing, passenger capacity and ideal positioning in Ibiza, Formentera and Palma's luxury charter market. Built in GRP fiberglass with teak decks, the yacht features a 6.71-meter beam and approximately 173 GT gross tonnage with a displacement around 134 tons. Propulsion is provided by twin Caterpillar C32 engines delivering 1321 HP each, with only 3180 engine hours. Originally developed from higher output configurations and commercially limited for operational reliability, these engines are perfectly suited for intensive charter activity. Cruising speed is approximately 15 knots with an average consumption around 300 L/h. The yacht is additionally equipped with:  
bow and stern thrusters,  
two Caterpillar generators,  
full hot/cold air conditioning,  
large indoor and outdoor reception areas,  
a spacious flybridge,

four guest cabins,  
three bathrooms,  
and a premium audio/video entertainment system ideal for luxury charter operations and onboard events. The 2024 refit introduced a modern contemporary interior atmosphere designed specifically for upscale charter clientele and exclusive events. MAIN SPECIFICATIONS
