Viewings by appointment

This **2021 Aquila 54 Yacht in the Owner's Version** offers a particularly desirable **3-cabin layout**, featuring a spectacular **full-beam owner's suite**, complemented by a VIP cabin with queen-size bed, a twin guest cabin and a **separate crew cabin with bunk beds**. The yacht has **4 bathrooms/heads in total**.

With an overall length of **16.50 m** and a **beam of 7.68 m**, the Aquila 54 Yacht offers exceptional volumes both inside and throughout its extensive outdoor living areas. Its layout makes it particularly well suited to **family cruising, extended stays on board and autonomous cruising programmes in the Mediterranean or further afield**.

Power is provided by **2 Cummins QSB 6.7 engines developing 550 HP each**, with approximately **830 engine hours**, coupled to direct shaft-drive transmissions. Two bow thrusters make manoeuvring easier. The yacht offers a **cruising speed of approximately 17 knots** and can reach **22 knots**. With **2,200 litres of fuel** and **1,000 litres of fresh water**, she is well equipped for extended cruising.

One of the major strengths of this yacht is its exceptional level of **energy autonomy**. She is equipped with an **18 kW Kohler generator**, a substantial **1,600 Ah Mastervolt lithium battery bank**, **3 Mastervolt Combi 3,000 W inverter/chargers** and **7 SunPower Maxeon 400 W solar panels**, providing a total solar capacity of **2,800 W**. A **350 L/h watermaker** and **77,000 BTU chilled-water air-conditioning system** complete an installation ideally suited to extended periods at anchor.

The navigation electronics are equally comprehensive, including a **Raymarine Axiom Pro 16"**, **Raymarine 4 kW radar**, **AIS 700**, **Evolution autopilot**, **Ray63 VHF** and **CAM220 docking camera**, together with wireless remote control. The **Dockmate system** allows remote control during manoeuvres, while **UniFi Wi-Fi** and **Starlink** provide excellent connectivity on board.

Outside, the Aquila 54 features a **large full-beam hydraulic bathing platform**, an **Opacmare hydraulic gangway**, a flybridge with hardtop, generous forward sunbathing areas and **genuine teak decking throughout**. The anchoring equipment includes a **65 kg Ultra anchor with 120 metres of 12 mm stainless-steel chain**.

Interior comfort is equally impressive, with a fully equipped galley including a large refrigerator, freezer, induction cooktop, oven, microwave, dishwasher, washer/dryer, ice maker and **23-bottle wine cooler**. A second 65-litre stainless-steel refrigerator is installed on the flybridge.

The multimedia system includes a **65" LG OLED TV in the saloon**, a **55" LG OLED TV in the owner's suite**, televisions in the guest cabins and on the flybridge, as well as a premium **Fusion Apollo audio system with Focal Littora and KEF speakers divided into four independent audio zones**. **Aqualuma RGB underwater lighting** completes the equipment.

Finally, the yacht comes with an impressive selection of water toys and leisure equipment: a **Highfield 380 tender with 60 HP outboard engine**, two Stellar Surfski kayaks, several SUPs, a Hobie Mirage, **Tiwal 3** and a **Powerdive Powersnorkel diving system**.

A particularly well-equipped **Owner's Version Aquila 54 Yacht**, combining exceptional volumes, comfort, energy autonomy and an extensive high-end specification.
